PROJECTS

01. Google Clone
Responsive Google Search Clone build with React.

(April 23, 2023 - April 25, 2023)

- Implements the Google's custom search API.
- Infinite loading implemented without using any 3rd party library.
- Completely responsive design.
- 50 requests a day limit.

<https://gclone-brs.web.app/>

02. Insta Scrapalyzer
Instagram scraper and analyzer that analyzes a public profile & calculates Engagement Rate of the user.

(April 19, 2023 - April 22, 2023)

- Fetches real time data of Insta user.
- Calculates E.R. that helps to find genuine Insta Influencers.
- Chart and all animations are implemented with CSS only.
- Completely responsive & no other library used.

<https://insta-scrapalyzer.web.app/>

03. CSS Animations
Created various CSS animated projects to practice CSS animations.

(March 28, 2023 - April 18, 2023)

- Some of my cool creations related to CSS animations are listed below along with the integrated link :
- [3D CSS spinner](#)
- [Animated Signin form](#)
- [Animated 2 in 1 Authentication form](#)
- [49 kinds of different animated hamburger buttons](#)

04. Expense Tracker Website
A feature rich React app that helps to keep the track of expenses done by a user where user can store all the data to firebase.

(March 19, 2023 - March 25, 2023)

- Integrated email verification and password reset functionalities using firebase APIs.
- App boosted with Material UI.
- Added downloading feature which allows premium users to download their expenses in an xlsx format.

<https://expense-tracker-brs.netlify.app/>

05. Mail Box Client
A simple React app that is able to send and receive mails without using any mail API.

(March 09, 2023 - March 15, 2023)

- Integrated react-draft editor for composing new email.
- User can see all the mails they have sent and received.
- Emails can be deleted & can be restored.
- Signup & Signin is implemented with firebase.

<https://mail-box-client-d6ce4.firebaseio.com/>

06. E-Commerce Website
Simple React app to buy sell products where you can store your all cart related data to firebase.

(March 01, 2023 - March 06, 2023)

- Used Google's firebase for user authentication, data storage and hosting.
- Added page protection to prevent any unauthorized access to the page.
- User can add the product to cart and purchase it or remove it from cart.
